Field Manuals

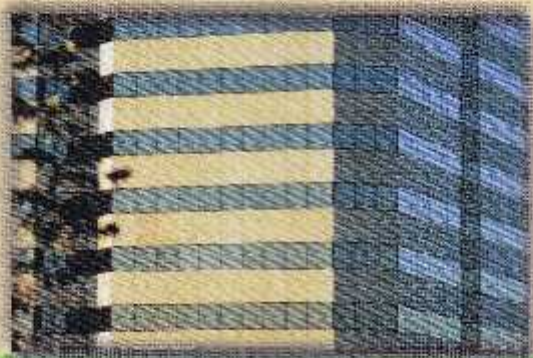

FACILITY INSPECTION FIELD MANUAL

A Complete Condition Assessment Guide

Portable and practical

Includes facility condition assessment
inspection checkpoints

Contains a condition assessment
survey for a find/fix program

BERNARD T. LEWIS - RICHARD P. PAYANT

Contents

Foreword	xiii
Preface	xv
How to Use This Book	xvii
Part 1 Developing a Condition Assessment Program	1
Chapter 1 The Need for a Condition Assessment Program	3
Chapter 2 The Condition Assessment Program	13
Chapter 3 Condition Assessment Customer Survey and Find/Fix Program	35
Part 2 Assessment Inspection Checklists (Detailed)	39
Division I Building Systems Assessment	41
Section 1 Chimneys and Stacks	42
Section 2 Buildings/Structures (Except Roofs and Trusses)	45
Section 3 Roofs	52
Section 4 Trusses	54

Section 5 Trailers	57
Section 6 Air-Conditioning Systems	57
Section 7 Cranes and Hoists	63
Section 8 Elevators, Platform Lifts, and Dumbwaiter	73
Section 9 Food Preparation and Service Equipment	94
Section 10 Heating Equipment	98
Section 11 Plumbing Systems	100
Section 12 Ventilating and Exhaust Air Systems	102
Section 13 Hot Water Systems	104
Section 14 Electrical Systems	106
Section 15 Lighting	109
Section 16 Switchgear	112
Division II Operational Facilities Assessment	119
Section 1 Towers, Masts, and Antennas	120
Section 2 Chemical/Fuel Facilities (Receiving and Issue)	122
Section 3 Chemical/Fuel Facilities (Storage)	125
Section 4 Brows and Gangways	127
Section 5 Camels and Separators	129
Section 6 Dolphins	130
Section 7 Piers, Wharves, Quaywalls, and Bulkheads	131
Section 8 Disconnecting Switches	135

Section 9 Electrical Grounds and Grounding Systems	137
Section 10 Electrical Instruments	138
Section 11 Electrical Potheads	141
Section 12 Electrical Relay	142
Section 13 Lightning Arresters	144
Section 14 Power Transformers, Deenergized	147
Section 15 Power Transformers, Energized	151
Section 16 Safety Fencing	155
Section 17 Steel Poles and Structures	158
Section 18 Vaults and Manholes (Electrical)	161
Section 19 Cathodic Protection Systems	164
Section 20 Electric Motors and Generators	166
Section 21 Pier Circuits and Receptacles	174
Section 22 Distribution Transformers, Deenergized	177
Section 23 Distribution Transformers, Energized	180
Section 24 Buried and Underground Telephone Cable	183
Section 25 Telephone Substations	185
Section 26 Fuses and Small Circuit Breakers (600 Volts and Below, 30 Amps and Below)	187
Section 27 Rectifiers	189

Division III Utilities and Ground Improvement Assessment	193
Section 1 Bridges and Trestles	194
Section 2 Fences and Walls	198
Section 3 Grounds	201
Section 4 Railroad Trackage	204
Section 5 Pavements	207
Section 6 Retaining Walls	210
Section 7 Storm Drainage	212
Section 8 Tunnels and Underground Structures	215
Section 9 Piping Systems	217
Section 10 Steam Distribution	218
Section 11 Sump Pump	220
Section 12 Fresh Water Supply and Distribution System	222
Section 13 Sewage Collection and Disposal Systems	226
Section 14 Unfired Pressure Vessels	228
Section 15 Underground Tanks	232
Division IV Utilities Plants	235
Section 1 Fresh Water Supply	236
Section 2 Electrical Generation and/or Distribution	237
Section 3 Heating Generation	241
Section 4 Air Conditioning Generation and Distribution	249

Division V Fire Protection System Identification	257
Section 1 Fire Alarm Panel	258
Section 2 Building Sprinkler Alarm Valves	259
Section 3 Fire Alarm Boxes	260
Section 4 Security and Intrusion Alarm System	263
Division VI Special Systems Assessment	265
Section 1 Structural Features (Foundations, Structural Frames, and Similar Items)	266
Section 2 Electrical Systems	267
Section 3 Plumbing and Piping Systems	268
Section 4 Motor Assemblies/Electric Motors	268
Section 5 Fans, Fan Shafts, and Fan Shaft Bearings	269
Part 3 Assessment Inspection Checklists (Abbreviated)	275
Building Systems Assessment	275
Electrical/Plumbing	275
Exterior Elements	279
Heating, Ventilation, and Air Conditioning	282
Clean Rooms	285
Interior Finishes	286
Structural	288

Exterior Facilities Assessment	289
Electrical/Plumbing	289
Grounds	293
Pavements	296
Railroad Trackage	298
Structural	300
Special Systems	302
Wind Tunnels	302
Vacuum Spheres/Pressure Vessels	303
Tunnels/Underground Structures	304
Bridges	305
Fuel/Chemical Storage/Distribution Facilities	307
Piers	309
Part 4 Supplementary Assessment Inspection Checklists	311
Section 1 Safety Management	311
Section 2 Custodial Management	316
Section 3 Grounds Management	319
Section 4 Environmental Management	325
Section 5 Indoor Air Quality Management	330
Section 6 Predictive Maintenance	335
Section 7 Energy Management Program	337

Appendix 1 Suggested Average Useful Life of Facility Components	341
Appendix 2 Electrical Reference Sources	351
Appendix 3 Electrical Formula and Data	355
Appendix 4 Mechanical Engineering Formula and Data	361
Appendix 5 Rules of Thumb	365
Appendix 6 Measurement Data	373
Appendix 7 Conversion Data	377
Index	399
